Marie Curie's hypothesis that radiation was an atomic property transformed forever how man would view the atom. There are some biographers who have said that this, and only this, was Marie Curie's great discovery, but that is not true. Sat, 10 Nov 2018 08:40:00 GMT Marie Sklodowska Curie: The

Woman Who Opened The Nuclear Age - Marie considered radioactivity an atomic property, linked to something hap-pening inside the atom itself. Rutherford, working with radioactive materials generously supplied by Marie, researched his "transformation" theory, which claimed that radioactive elements break down and actually decay into other elements, sending off alpha and beta rays.
