## seth lloyd books

Programming the Universe: A Quantum Computer Scientist Takes On the Cosmos is a 2006 popular science book by Seth Lloyd, professor of mechanical engineering at the Massachusetts Institute of Technology.

Programming the Universe - Wikipedia -

The Universe as Quantum Computer  
Seth Lloyd  
Department of Mechanical Engineering  
Massachusetts Institute of Technology  
Cambridge MA 02139 USA  
December 17, 2013

Abstract This article reviews the history of digital computation, and investigates just how far the concept of computation can be taken. In

The Universe as Quantum Computer  
arXiv:1312.4455v1  
[quant-ph ... - mation can be transferred and transformed. Quantum information science, then, is the theory of communication and computation at the most fundamental physical level. Quantum computers store and process information at the level of individual atoms. Quantum

communication systems transmit information on individual photons.
